**There is no specific time designated for discipleship; while there are phases of maturity, stewardship, and leadership, discipleship is ongoing, and as such, discipleship residents may stay as long as they desire, provided they believe they are continuing to grow and are fulfilling their responsibilities. The most important consideration for disciples transitioning out of the home is that they are established in the family of God, rooted in the love of Christ.*

The Vision - Christian Discipleship

The vision is to establish homes for men and women, including young adults aging out of foster care, for the purpose of Christian discipleship, as we mature in relationship with God and others, to the full measure of the stature of Christ.

God is preparing laborers for the harvest and this home is dedicated to raise up men to be mentors, overseers, teachers, and shepherds. Some may consider additional opportunities to serve at a larger transformational living community called Restoration Ranch AZ. Please contact Tom Crandall at (602) 899-5854 for more info.
